## Internet Use Policy Statement

1. **Acceptable Use** — The primary purpose of Internet availability and related technologies is to support education by providing access to unique resources and an opportunity for collaborative work. Its use must be consistent with the educational objectives and consistent with the philosophy and educational and spiritual objectives of the school. Electronic communications to or from Christ Prep should reflect the Christian principles and educational goals of the school. The policies in this document apply to all use of the Internet at Christ Prep, whether the student is using the school's hardware or their own laptop, smart phone, or any other device to access the Internet. Students should be aware that Community Covenant church technical staff have the ability to track Internet use by anyone in the building who accesses any of the networks that go out of the building to the Internet.
2. **Unacceptable Use** — Transmission of any material in violation of any state or national regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material, or material protected by trade secret. Use for commercial activities is not acceptable. Use for product advertisement, political lobbying, unauthorized game playing, unauthorized chat, or chain letter communication is also prohibited. Other examples of unacceptable information are pornography, information on bombs, inappropriate language and communications, and bullying or harassment of any type. Use of personal social networking sites is prohibited and only educational social networking sites may be accessed on school computers. All users shall assume full liability, legal, financial, or otherwise for their actions.
3. **Privileges** — The use of the Internet and related technologies at Christ Prep is a privilege, not a right. Inappropriate use will result in cancellation of Internet privileges, including the possession and use of personal electronic devices at school. The school's IT coordinator, supervising teachers and school administrators will have authority to deny, revoke or suspend access to users for deliberate misuse or inappropriate behavior. The school also reserves the right to log Internet use and to examine data at any time – including data on personal electronic devices.
4. **Security** — Because security on any computer system is a high priority, students have a duty to abide by Christ Prep policies regarding logging in and out of any available network. Students also have a duty to report any inappropriate use or security problem to a school staff member. A student's attempt to use administrative functions will result in cancellation of his or her user privileges. Users will notify the supervisor immediately if an individual is trying to contact him/her for illicit or suspicious activities.
5. **Warranties** — Christ Preparatory Academy makes no warranties of any kind, expressed or implied, for the Internet service it is providing. This includes loss of data and non-delivery or service interruptions. The school also denies responsibility for the accuracy or quality of information received from the Internet.
6. **Copyright** — It is the policy of Christ Preparatory Academy that all employees, volunteers, and students will abide by the federal copyright law. Employees, volunteers, and students may copy print or non-print materials allowed by: copyright law, fair use guidelines, specific licenses or contractual agreements, and other types of permission. All school software must be properly purchased or donated, including licenses. Employees, volunteers, and students who willfully disregard copyright law are in violation of Christ Preparatory Academy policy, doing so at their own risk and assuming all liability.
7. **Netiquette** — Students are expected to abide by the generally accepted rules of network etiquette including the following: Computers must be treated with respect. No computer should ever be physically vandalized. Students must never install or remove any software (computer programs) on a school computer without teacher permission.
  - All software on school computers is copyrighted, which means students are not allowed to copy, share or change programs in any way.

- Users are expected to be courteous and use appropriate language. The use of obscenities, vulgarities, profanities or harassing statements is strictly forbidden on the internet just as it is in all other situations at school.
  - Users should be careful to disclose only information pertinent to the topic they are researching. They should refrain from disclosing any personal information about themselves or others, such as their address, phone number, credit card number, or even the school's name.
  - E-mail at school is to be used exclusively for educational purposes. Users should remember that electronic mail is not private and that the school may have access to all emails.
  - Users are not to use the network in a way that disrupts the use by other people. Any malicious attempt to harm or destroy the data of another user, the Internet, or any other network is considered to be vandalism and is strictly forbidden. Unauthorized use of another's computer, access accounts, and/or files, is prohibited. Users shall not intentionally seek information on, obtain copies of, or modify files, other data or passwords belonging to other users or misrepresent other users on the network. Malicious use of the network to develop programs that harass other users or infiltrate a computer or computing system and/or damage the software components of the computer or computer system is prohibited.
  - Users will acknowledge that all information accessible via the Internet is assumed to be private property. Plagiarism, using material created by someone else without permission or acknowledgement, is forbidden. Students shall be responsible for citing Internet resources and respecting copyrighted material.
  - Users are not permitted to access personal social networking sites at school. Students must refrain from posting pictures of other Christ Prep students without their permission. In addition, they must abide by the discipline and conduct codes of Christ Prep found in the Parent/Student Handbook while on their personal social networking site.
- 8. *Guidelines for Use of STM Internet Service*** — Students must accept the following rules for Internet use in school:
- I understand that I must have a signed policy on file before Internet privileges will be granted.
  - I understand that I will not reveal my personal home address, phone number, or personal information about anyone else. User's personal identifier on email must use the school address only.
  - I know that use of the Internet and computers is a privilege and not a right and I agree to follow the guidelines and rules established by Christ Prep for its use.
  - When applicable, I will not share my user id or password with any other student.
  - I will have approval from my teacher for all topics that I research on the Internet and will present evidence of this to any staff member who requests it.
  - I will use the Internet only when an adult is present to supervise.
  - When applicable, I will properly log in and log out when using any computer at Christ Prep. Violations of this policy that occur under my login are my responsibility.
  - I will not enter a chat room, divulge personal information about others or myself, or play unauthorized "arcade-style" games online.
  - If I find myself in an uncomfortable or inappropriate situation on the Internet, I will stop immediately and tell a teacher in charge.

This policy adapted from the policy of  
St. Thomas More Catholic School in Decatur, Georgia

## Code of Conduct

Christ Preparatory Academy's Code of Conduct reflects a Biblical philosophy and standard. This code of conduct establishes the expectations we have for our students and staff as they embrace and participate in the activities and academics of our school. As each of us signs this code of conduct we are promising our teachers and our peers that we will carefully obey the letter of this code and that we will also conform to the spirit behind this code of conduct.

We have identified three attributes that we hope will influence all that we do at Christ Preparatory Academy. The first is righteousness. We want uprightness and integrity to be the hallmark of Christ Prep. The second is honesty. We desire to be honest in all our dealings both within the context of our school and as a school to our community. We also value kindness. We simply hope to be fruitful and exemplary in showing kindness.

We hope that these values will be intrinsic to our school atmosphere and that all of us together will continually strive to achieve growth both personally and corporately as a school. With these general principles in place, we want to elaborate how these are to be demonstrated in our code of conduct.

1. I will be truthful in all of my affairs.
2. I will conform to the values and truths set forth in the statement of faith and will introduce no opposing philosophy into the school.
3. I will esteem the gospel and all those who embrace it. I will bring no reproach against the gospel or against those who embrace it.
4. I will be careful with and protect my fellow students. I will strive to be a positive and encouraging influence on all my peers. Thus I will not shame my fellow students through ridicule or name calling. I will give special consideration to those weaker than I and especially strive to encourage them.
5. I will not use profanity.
6. I will not engage in public displays of affection between the sexes such as hand-holding, kissing, etc.
7. I will honor and quickly submit to all those who are in authority over me and do all I can to make their responsibility a joy and not a burden. I will respectfully address them as Mr. or Mrs. or Coach.
8. I will treat the school facility and grounds in a manner that is reflective of gratitude. This means I will keep them clean and orderly.
9. I will treat any facility that I am using in the name of Christ Preparatory Academy with the same attitude that I have at the school facility.
10. I will conduct myself at all of the off campus activities as if I were on the campus of the school.
11. I will not engage in tale bearing (gossip or tattling). I will be responsible to report the misconduct of my peers for their protection as well as for the honor of the school. I acknowledge that by my silence I become a partaker (partner) with them in their misconduct.
12. I will be careful to conform to the Biblical standard for the godliness in all that I do and will honestly confess my guilt in any infraction.
